LOCKDOWN ENFORCEMENT

Drones with public announcement system were used for spreading awareness about COVID-19 precautions viz social distancing, using of mask, use of soap and sanitizers for cleaning hands etc., monitoring of crowding in public places and detection of violations of lockdown orders. Trouble spots were identified. Shops of non-essential goods were identified and their operation was identified and action was taken. Geo tagging technique was used for checking vehicles and monitoring their movements.

Pamphlets were distributed to create awareness about pandemic. Social media platforms, public address systems, banners and print media were used to spread awareness about COVID-19 and related government orders.

MANAGEMENT OF QUARANTINE CENTRES, CONTAINMENT ZONES, SHELTER HOMES

Geo tagging of homes with Corona positive patients was done to monitor the activities and stopping of not permitted activities. Provision of health inspectors for routine health checkup and screening of patients was ensured. Command Centre was set up at the entrance of the containment area and a few doctors, police personnel, a health inspector, BBMP officials and a volunteer from Corona warriors was appointed as the Nodal officer to look after the containment area. CCTV cameras were set up at various points within the area and was accessible from the command center. Location of sellers of essential items viz ,medicine ,milk, grocery, vegetables etc. was fixed for each containment zone and the same was put on respective WhatsApp group having members from 25 to 250 + numbers. Senior citizens were also served and taken care of their health issues by specific WhatsApp group. Quarantine persons were also stamped for identification.

ENSURING SUPPLY ESSENTIAL GOODS & SERVICES

Geo Mapping and tagging of Bengaluru was done in categories of essential supplies, food donors, needy people & ration donors to help hungry and needy people. This provided real time data of beneficiaries on the dash board in the control room. Food and ration network for distribution of dry ration & cooked food by community kitchen was established in police stations. Over 1 lakh people including migrant labourers, slum dwellers, daily wage earners, construction workers, security personal, street vendors and all the other needy persons were assisted.

OPERATIONAL ESSENTIAL STORES ACROSS BENGALURU

PUSHCART VENDOR INITIATIVE

This initiative was taken to stop panic buying by residents of various localities. The pushcart vendors of vegetables were made aware of social distancing, use of mask, sanitization of hands after every sale using sanitizer/soaps. Face shield, mask & sanitizer distribution along with thermal screening was ensured. Police announced that vendors will deliver fruits and vegetables to their respective areas only.

INDIAN POLICE RESPONSE TO COVID - 19

The vendors were given time slots for selling their products. Police announcement in areas was done. Benefits of this initiative were:

- ❖ Prevention of social gathering/unnecessary movement of people and vehicle
- ❖ Areawise sales was enabled which ensured better sales for the street pushcarts.
- ❖ Safe and harmless sales of fresh vegetables and fruits.

COMMUNITY POLICING

PS limits were divided into beats and two volunteers were assigned to each beat. A WhatsApp group was created for effective communication. The volunteers reported cases of community offence. Effective measures (Standard Operating Procedures, barricading, earmarking of designated area for public dealing) at police stations for minimizing exposure were taken.

MANAGEMENT OF STRANDED MIGRANTS

It includes registration, medical screening, verification of documents, arrangement of buses for travelling to other states. More than 10000 labourers were provided with food and shelter and made aware of the importance of social distancing, mask, sanitization. Travel of more than 50000 workers to their home states was arranged in special trains.

BANGALORE RANGE (TUMKUR)
