

MAJOR INITIATIVES UNDERTAKEN BY MCGM (AS ON 25.05.20)

1. Orders are issued to make 80% regular Beds and 100% ICU Beds in 33 private hospitals available at affordable Government rates. Accordingly, additional 2624 beds in private hospitals have been made available for Covid patients and 3020 beds for non-Covid patients. The remaining 20% will be available at the hospital for commercial use.
2. A total of 417 Covid ICU beds and 538 non-Covid ICU beds at government rates for poor and middle class patients in these 33 private hospitals will also be available from today.
3. The 56 beds in the 1000-bed jumbo facility set up by MMRDA at BKC have been operationalized today. This will be followed by the addition of 56 beds per day. The jumbo facility has a 200-bed ICU. ICU facility at the nearby Asian Heart Institute will be utilized until the ICU facility at BKC is operational.
4. Based on State Government's notification of 80:20 for private hospitals, at least 100 general beds and 20 ICU beds of other private hospitals are being taken over at each ward level. As such, a total of 2,400 additional Covid beds with 240 Covid ICU beds will be made available in all the wards in the next three days.
5. DCHC and DCH facilities with more than 7000 additional beds will be available by June 15, 2020 through jumbo facilities being set up at Race Course, Dahisar, Goregaon and Mulund.
6. By 31st May, 2020, 640 beds at NSCI Worli (out of which 40 ICUs), 300 beds at Mahalakshmi Race Course, 1000 beds at B.K.C. Bandra, 535 beds at NESCO Goregaon totalling 2475 beds will be available for Covid patients.(All DCH/DCHC only).
7. A total of 14000 DCH/DCHC beds will be available by 31.05.2020 and 29,949 beds have already provided for CCC2 (for Covid

patients with extremely mild or asymptomatic). This can all accommodate approx. 44,000 active cases on 31.05.20. However, actual number of Active Cases expected on 31.05.20 is around 28000 only.

8. A total capacity of 71,816 beds under DCH/DCHC/CCC-1/CCC-2 already established. However, One Lakh Beds under DCH / DCHC/CCC-1/CCC-2 will be provided in Mumbai by 15.06.2020.
9. A computerized system has been developed for allotment of available beds in Mumbai Municipal Corporation, State Government and Private Hospitals as a Single Platform and the system has been already operationalized for the allotment of beds seamlessly.
10. KEM, Nair, Sion, JJ, GT, St. George's and BMC's Peripheral Hospitals have been assigned an IAS officer each with the following functions and duties.
 - Establishment of a War Room in each of these hospitals.
 - Installation of CCTV in all ICUs and Covid wards.
 - To ensure that all doctors, nurses, paramedical staff are present at night and in the morning.
 - Manage real time dashboard uploading of available bed data every 30 minutes.
 - Strict implementation of the prevailing discharge policy so that no patient is occupying bed unnecessarily.
 - To manage the distribution of beds through 1916 by giving unique ID code to each bed.
 - Maintain the quality of food provided to the patients and their relatives in the hospital and ensure adequate supply of food in the hospital canteens with the help of NGOs.

- To ensure proper hygiene and maintenance in the hospital so that the Deans of the hospitals are relieved of this responsibility and they can take better care of the patients.
11. 360 Fever Clinics have been set up in Mumbai to check the Covid like symptoms of patients and take further necessary action.
 12. 100 ambulances were available in Mumbai on 08.05.2020, which have been increased to 455 now. The operations of these ambulances will be through App based computerized system which will be rolled out in two days.
 13. Immediate action is being taken to ramp up Covid tests in Mumbai.
 14. A total of 3.76 Lakh migrant labourers have left Mumbai for their native place since 18-05-20.
 15. About 7 lakh food parcels are being distributed daily by the Municipal Corporation.
 16. So far 65,000 calls have been received on the Corporation's helpline 1916 and appropriate action has been taken.
 17. Under the Vande Bharat Mission, proper facilities are being provided to Indian nationals returning from abroad at Mumbai Airport and so far more than 1000 passengers have been quarantined in various hotels seamlessly.
 18. Pre-monsoon cleaning of all nallas in Mumbai has been going on for the last one month and a survey is being carried out by drones for the last three days for better monitoring. The survey will run until May 29. In the next few days, a special clean-up operation will be carried out, focusing more on the problem points identified by the survey.
